

Company overview

ALGU Co. engineers and delivers next-generation technology for government and enterprise customers, specializing in quantum systems, artificial intelligence, cybersecurity, IT infrastructure, software engineering, and advanced hardware integration. We serve federal, state, and local agencies as a prime contractor and as a specialty teaming partner. Every engagement is scoped against a signed statement of work and the compliance requirements of the contract.

Core competencies

- **AI and machine learning:** ML pipelines, anomaly detection, data readiness, quantum-enhanced ML research
- **Cybersecurity and zero trust:** threat detection, identity and access architecture, secure-by-design software, CMMC and NIST SP 800-171 readiness support
- **Post-quantum cryptography:** cryptographic inventory, crypto-agility design, migration planning, PQC-ready engineering
- **Quantum software and R&D:** hybrid quantum-classical algorithms, optimization, simulation, cloud quantum integration (Azure Quantum, AWS Braket, IBM Quantum)
- **Software, mobile, and DevSecOps:** custom web and mobile applications, APIs, secure CI/CD, legacy modernization
- **Cloud, data, and HPC:** cloud and hybrid HPC architecture, data platforms, analytics foundations
- **Hardware and infrastructure engineering:** custom quantum processors (five architectures), RF/microwave and cryogenic control, data-center and power systems

Differentiators

- **Full-stack ownership:** software, silicon, cryogenics, and power engineered as one system
- **Quantum-safe by default:** quantum-resistant cryptography across client and internal systems
- **Seven specialized divisions:** the right team owns each part of an engagement
- **Compliance-first delivery:** export-control and data-handling review on every engagement

Company data

Legal name	ALGU Co.
DBA	algu
State entity	North Carolina Business Corporation, No. 1617133 (Current Active)
Address	2321 Dundeen St., Charlotte, NC 28216
Email	algu@algu.net
Website	algu.net

NAICS codes

541511 Custom Computer Programming
541512 Computer Systems Design
541513 Computer Facilities Management
541519 Other Computer Related Services
518210 Computing Infrastructure / Data Processing
541715 R&D, Physical/Engineering/Life Sciences
541330 Engineering Services
541690 Scientific and Technical Consulting
541618 Other Management Consulting

Contract pathways

- Prime contracts and simplified acquisitions on SAM.gov
- Subcontracting and teaming under larger integrators
- SBIR/STTR and agency R&D solicitations
- GSA schedules and GWACs, directly or through teaming
- State and local government procurement
